

# Groupe Medicos

March 18th 2020

Dear Customers, Dear Partners,

We are currently going through an unprecedented health and economic crisis.

We do not know the duration nor its consequences.

Faced with the COVID-19 epidemic and in line with government directives and guidelines, our company is taking special measures to protect the safety and health of its employees, customers and partners.

In this exceptional situation, we very quickly started production with a reduced workforce but to protect the health of our employees we are taking new measures immediately today:

Our technical departments and factories will be closed for a period of at least 15 days.

Consequently, the deliveries scheduled for our customers will be suspended until the resumption of our activity.

Our services, sales and logistics can be reached through your usual contacts.

We will keep you informed of all developments.

Together, we are going through this unprecedented period and are convinced that our solidarity and our civic sense will allow us to overcome this exceptional situation together.

Cédric MARMONIER

CEO
