

Lines, shapes, and details that enhance our new Premium Packaging dedicated to the world of extra virgin olive oil.

*A detail that is noticed
is a detail that makes a difference.*

**Un dettaglio che si nota
è un dettaglio che fa la differenza.**

When we prepare to enjoy the qualities of an oil, we expect that the chosen packaging provides us with a unique visual, sensory, and aesthetic experience. Horizon arises from the desire to develop a Premium collection with innovative forms capable of anticipating market trends with a seductive and highly recognizable design.

A detail, from here arises this new collection. An innovative, precious, and ambitious recess that creates a separation between the base and the body of the bottle, providing balance and enhancing the shapes.

A detail designed to highlight one of the greatest Italian products, your oil.

Bouquet

A design characterized by harmonious proportions between the domed shoulder, extending from the top of the body outward, and the conical body. An exclusive packaging that stands out with a distinctive character and can be further identified thanks to the extensive labelable area.

An alternative solution for innovative and elegant packaging with a DOP neck to safeguard the inviolability of the content.

Valorizza l'identità del tuo brand.

Traditionally, the only customization elements for a bottle have been the label and the cap.

Horizon represents a true innovation, a unique detail, allowing artistic expression for both the customer and designers, in order to make the final packaging even more recognizable and appealing.
