# Sweet Home

FOR HOME FRAGRANCES THAT LOVE THE PLANET

# **SWEET HOME** **SUSTAINABLE CAPS** **FOR HOME FRAGRANCES**

SWEET HOME is our new line  
of caps and accessories  
for home fragrances  
that communicate  
your love for the planet!

## \_CAP FOR HOME FRAGRANCES

THE MATERIAL

# SWEET HOME CAPS GIVE A SECOND LIFE TO OUR ORGANIC SCRAPS

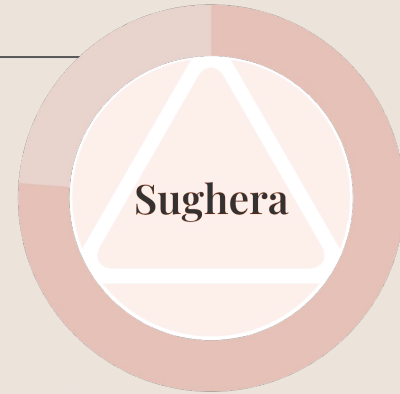

We have designed our Sweet Home caps to create an attraction between consumer and product but we have not forgotten sustainability and respect for nature!

With the help of our partner Mixcycling Società Benefit we have reused our cork waste to develop Sughera®, the material with which we produce accessories for attractive and concretely sustainable home fragrances.

Thanks to organic component

- we reduce the use of non renewable resources
- we reduce CO2 emissions
- we regenerate our waste according to the circular design approach that we apply to each of our projects

volume

100% closed loop  
recyclable

Reduce the use of non  
renewable resources

LCA friendly thanks to the  
regeneration of the scraps

Biogenic CO2 storage

## DESIGN YOUR SWEET HOME

With the right combination of material, color, logo  
SWEET HOME accessories will communicate the personality of your brand

### THE MATERIAL

Mixcycling® Sughera: the cork fibers contained in the material give a natural and warm effect to your Sweet Home cap

### YOUR COLOR

You can dress your Sweet Home cap in the colors you prefer: light shades make its fibers and naturalness stand out, dark shades make it elegant and sophisticated.

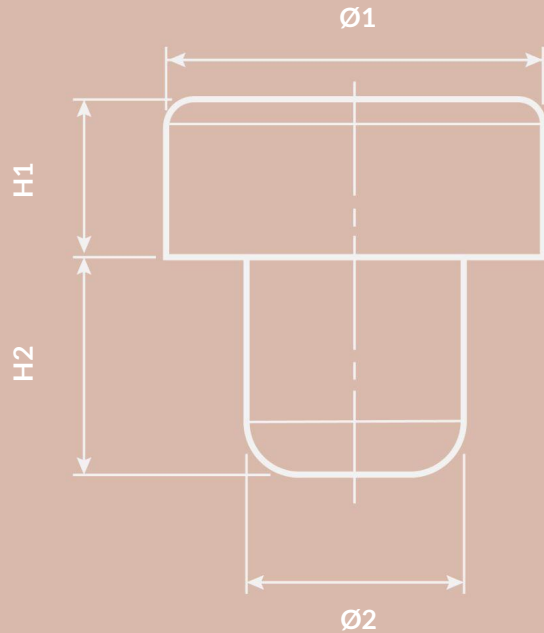

### YOUR LOGO

Do you prefer a simple and sustainable solution? Apply your logo in relief on Sweet Home: it does not require additional processing or the use of inks.

### YOUR MEDAL

For even more effective communication of your brand, your logo on a medal is the right choice. The medal is applied without the use of glue.

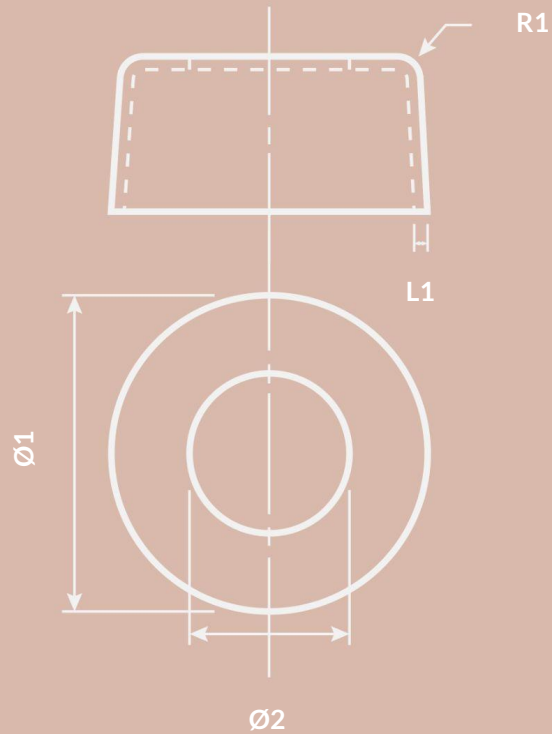

## SWEET HOME T-SHAPED CAPS

Sweet Home T-shaped caps are made of Sughera, a soft and velvety Mixcycling® material: it is a cap to be touched, seen and perceived.

T-Shaped caps are available in a variety of shapes and sizes and adapt well to any type of bottle.

Just send a sample of the bottle to our laboratory which will carry out the seal tests to identify the right size of the stopper.

## SWEET HOME DIFFUSERS

We can design your diffuser based on the fragrance container you have chosen.

Send us the technical sheet of the bottle and our R&D department will study the right solution for your packaging.

## GET INSPIRED BY **SWEET HOME**

Free your imagination!  
You can create your own exclusive Sweet Home  
using different materials  
like FSC certified wood!
